This fan-fiction article, **Pirate**, was written by Witcher190. Please do not edit this fiction without the writer's permission.

A pirate is a person who attacks and robs ships at sea or other bodies of water as a way of life. Pirates have existed since almost the beginning of human civilization and some say that even prior, but they didn't have their golden age until some time after the discovery of the Western Continent during the 15th to 18th centuries.

Most pirates are of human origin. But there are cases of non-human and semi-human pirates, due to the contact between the different civilizations that populate the world.
